Detailed Action

1. This action is submitted in response to the amendment filed 11-2-2005, where claims 1 and 2 are canceled, and claim 4 is amended. Claims 3-9 are pending.

2. The Examiner agrees with the arguments presented in the Remarks filed 11-22-2005 regarding the Modavi (879) patents failure to teach that the intersection of the curved surface of the microlens with each of the two perpendicular planes that contain the central axis of the core, is an arc, and thereby withdraws the rejection in the Office Action mailed 12-01-2004.

Allowable Subject Matter

3. Claims 3-9 are allowed

Examiner's statement of reasons for allowance

The following is an examiner's statement of reasons for allowance:

4. Claims 3 and 9 are allowed because prior art fails to show an optical fiber microlens that has a core and cladding and at the tip an anamorphic means of convergence, in which at the optical fiber tip that faces the light source or radiated beam a first pair of inclined surfaces is formed in a positional relationship such that they intersect in a wedge shape, on the axis of a plane perpendicular to the axis of the optical fiber along the center of the core are formed second inclined surfaces at the angle θ to a plane perpendicular to the central axis of the optical fiber and lengthwise to the wedge-shaped tip, and wherein the tip of the optical fiber microlens is processed

as a curved surface, in which the intersection of the curved surface with each of two perpendicular planes that contain the central axis of the core is an arc, each with a specified radius.

5. Claims 4-8 are allowed by virtue of their dependency upon allowed claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

6. Any inquiry concerning this communication or earlier communications should be directed to Phillip Johnston whose telephone number is (571) 272-2475.
